Call for Developers Track

Important Dates
Proposal Submission Deadline: Jan. 10, 2014
Acceptance Notification: Jan. 29, 2014
Camera-Ready Deadline: Feb.5, 2014

This is a track by Web developers, for Web developers. The audience will be highly technical and expecting to see new trends and interesting ideas, code and APIs of emerging applications, platforms and standards. Demonstrations of technical nitty-gritty are strongly encouraged. Submissions MUST be relevant, interesting and useful to working Web developers.

Focus areas include, but are not limited to the following:
Browsers, Plugins and Development Tools
Cloud Platforms and Development in the cloud
Open Data and Data Markets
Distributed Data Processing
HTML5 and Beyond
Applications of Linked Data
The Web on new Devices
Web Standards and Protocols
Authentication and Identity for developers
User Interfaces and Visualization
Video and Multimedia on the Web
Web Data Acquisition and Cleaning

Submission guidelines:
This track is an ideal venue for short reports of industry and academic technical works. The proceedings of the Developers Track will be published online.

Accepted presentations will be considered for one of the following formats:
Lightning talk/demo (5min) / Short presentation (20min) / Long presentation (40min)

Authors should indicate, in their submission, presentation format preference. The committee will decide presentation type based on the reviews.

Proposal submissions consist of a 1-3 page descriptions of the work in PDF format. Use of the ACM SIG Proceedings Template for PDF is recommended. Submissions must go through the EasyChair system.
