> We sincerely invite contributions to the research track of The Web Conference 2020 (formerly known as WWW). The conference will take place in Taipei, Taiwan from April 20-24, 2020.

The Web Conference is the premier conference focused on understanding the current state and the evolution of the Web through the lens of computer science, computational social science, economics, policy, and many other disciplines. The 2020 edition of the conference will focus on looking into the future of the Web, including applying new technologies on the Web such as AI, IoT and 5G. To this end, we encourage submissions that describe in-depth studies to improve our understanding of the Web and its impact, introduce technical and socio-technical advances that enhance and expand Web platforms and technologies, and make strides in democratizing access to Web information and knowledge.

The topics of interest are highlighted in the research tracks listed below. Detailed call for papers for each research track will be announced later on.

- Crowdsourcing and Human Computation
- Economics, Monetization, and Online Markets
- Web Mining and Content Analysis
- Web of Things, Ubiquitous, and Mobile Computing
- Search
- Security, Privacy, and Trust
- Semantics and Knowledge

- Social Network Analysis and Graph Algorithms
- Web and Society
- Intelligent Systems and Infrastructure
- User Modeling
- Future of the Web
- Health on the Web

Submission Guidelines

For the research tracks, authors can submit two types of papers: short papers (up to 6 pages in length) and full papers (up to 10 pages in length), plus unlimited pages for references. Page limits include diagrams and appendices. Submissions should be formatted according to the formatting instructions in the General Guidelines at the official website: https://www2020.thewebconf.org/

Submit papers through https://easychair.org/conferences/?conf=www2020

General Co-Chairs
Dr. Yennun Huang, Academic Sinica, TW
Prof. Irwin King, The Chinese University of Hong Kong, HK

Program Chairs
Dr. Tie-Yan Liu, Microsoft Research Asia, CN
Prof. Maarten van Steen, University of Twente, NL

Important Dates

Abstract submission deadline
Oct 7, 2019

Full paper submission deadline
Oct 14, 2019

Workshops & Tutorials proposal deadline
Nov 3, 2019

Acceptance notification
Jan 10, 2020

Early Bird Registration deadline
Feb 20, 2020

All submission deadlines are end-of-day in the Anywhere on Earth (AoE) time zone.
